00%	10%	60%	90%	90%	30%

Forecast for Tuesday 27 Oct 2020

Weather: A largely clear and chilly start with plenty of sunshine. This will give way to cloud and rain spreading from the southwest through afternoon. All ranges then set for around 6 hours of rain, on the heavy side at times. Rain turning to sleet and snow above 800m. Rain clearing east through evening.

Chance of cloud free mountain/hill tops above 800m: 80% falling 20% from mid afternoon as cloud descends to 500-700m quite widely.

Visibility: No issues through morning but becoming limited to a few kilometres later in rain, but much less above the cloud base and in snow.

Met Office Aberdeen Meteorologist's View

Be aware of fast deteriorating conditions through afternoon. Feeling very cold at height in rain and strong winds. Gusts reaching 50mph across the Cairngorm Plateau through afternoon.

Forecast for Wednesday 28 Oct 2020

Weather: A dry, cold and locally frosty start then an increasingly windy day of sunshine and showers, these focussed across the western ranges with the Cairngorms seeing the best of the shelter. Some showers on the heavy side and falling as snow above munro level.

Maximum wind: South or southeast 30-40mph gusting up to 55mph across highest summits and plateau.

Chance of cloud free mountain/hill tops above 800m: 40% west, 80% east. Cloud bases generally 600-800m but occasionally lower in showers. Cloud cover much more broken across the more sheltered east.

Visibility: Variable with visibility reduced to a kilometre or less at height in cloud, rain and snow but generally no issues on lower slopes and across more sheltered eastern areas.

Temperature: **Glens:** 0-3C rising 8-10C.
At 800m: Around 1C.
Freezing level: 1200-1400m.
